CHARGED WITH CAUSING DEATH OF J. LINDGREN

C. J. Johnson, Telephone Construction Superintendent, Arrested.

IS HAVING A HEARING

Daughter of Watchman Swears Out Warrant as Result of Crossing Assault Aug. 25.

C. J. Johnson, superintendent of construction of the Central Union Telephone company, is under arrest for manslaughter in connection with the death of John Lindgren, the aged watchman of the Fifteenth street crossing on the Rock Island road. He was apprehended by the Moline police last evening and is having a hearing this afternoon before Police Magistrate Frank Gustafson. His bond was fixed at \$5,000.

It is charged that Mr. Johnson ran into the watchman and struck him with a whip Aug. 25, inflicting injuries which led to gangrene and finally causing death. The defendant has not been positively identified as the man who committed the assault.

Mr. Johnson is represented by Attorney G. A. Shalberg, while Assistant State's Attorney A. C. Edwards appears for the state. Arnold Morrison, Paul Seasholtz and Seymour Peterson, who testified at the inquest are witnesses for the state and whether the prisoner is held for further trial depends upon whether they are able to positively identify him.

RHEUMATIC PAINS PROMPTLY DISAPPEAR

RELIEF COMES AFTER TAKING FEW DOSES OF CROXONE.

It is needless to suffer with rheumatism, and be all crippled up, and bent out of shape with its heart-wrenching pains, when you can avoid it.

Rheumatism comes from weak, inactive kidneys, that fail to filter from the blood the poisonous waste matter and uric acid, and the only way to overcome it is to remove the cause. Croxone does this because it neutralizes and dissolves the poisonous substances and uric acid that lodge in the joints and muscles, to scratch and irritate and cause rheumatism, and cleans out and strengthens the stopped up, inactive kidneys so they can filter the poison from the blood, and drive it on and out of the system.

Croxone is a truly remarkable medicine for rheumatism, kidney troubles and bladder disorders. You will find it differs from other remedies. There is nothing else just like it. It matters not how old you are, or how long you have suffered, it is practically impossible to take it without results. Relief follows the first few doses, and you will be surprised how quickly all misery and suffering will end.

An original package of Croxone costs but a trifle and all druggists are authorized to sell it on a positive money-back guarantee. Three doses a day for a few days is often all that is ever needed to overcome the worst backache or urinary disorders.—(Adv.)

RESUME WORK ON RURAL HIGHWAY

Expected That Five-Mile Road South of Rock River Bridge Will Be Finished.

Under the direction of J. J. McCaughey, a Chicago contractor, and Commissioner Clark Anderson, work was today resumed on the rural road which the city is opening from the Rock river bridge south to the Rural town hall. It is the intention to finish the five miles of road before cold weather.

For two years the highway has remained in an incomplete state because of lack of funds. One and one-half miles of the south end, much of it rough, was left untouched. Grading gangs have now been started at the southern end of this section and will work northward to connect with the completed portion. Five thousand dollars has been raised to finish the undertaking.

Since the opening of the Rural road was started several years ago \$18,000 has been expended. This was supposed in the beginning to be sufficient, but changes in grade and the installing of a number of concrete bridges, and culverts not contemplated in the original plans carried the expense considerably above the estimate. It is now believed that the \$5,000 on hand will not only open the southern end but will also be sufficient to permit grading parts of the completed road which have fallen into disrepair.

FAREWELL DINNER FOR RETIRING PUBLISHER

C. J. Zaiser yesterday closed his connection with the Moline Mail and Journal, which he has managed for several years, and today T. J. Van Deusen, one of the new owners, took personal charge. Mr. Van Deusen will look after the business end. Later Woodworth Clum is expected to take up the direction of the editorial work.

Last evening a dinner was given at the Manufacturers' hotel by John Sundine, manager of the Dispatch, as a farewell for Mr. Zaiser. Employees of the two newspapers were guests. Mr. Zaiser plans an extended vacation trip to points along the Gulf of Mexico and will then go to Spokane, Wash., where he has work in view.

CHORAL UNION IS TO PLAN ITS WORK FOR SEASON

Next Tuesday evening the season of the Moline Choral union will be opened. Notices have just been sent out announcing the meeting, which will be held at the First Congregational church and will be for the purpose of organizing for the year. Plans will be outlined. It is probable that the same general plan will be followed as last year, with a midwinter concert about the holidays and a May festival. Dr. Charles G. Allum, director, will recommend musical work appropriate for the chorus to take up.

HARBOR LINE TO CITY'S BOUNDARY

Government Preparing for Survey of River Front from Thirty-fourth.

ORDERS. PUBLIC HEARING

Improvement of River Drive to Watertown Mak's It Necessary to Have Limits Defined.

A petition by the city commission for the establishing of a harbor line along the Mississippi river from Thirty-fourth street east to the city limits is to receive early attention at the hands of the war department. Major Charles Keller, engineer in charge of the office at Rock Island, has issued notices of a public hearing on the question to be held at the city hall in Moline at 2 p. m. Oct. 10, at which those owning property fronting on the river in the district affected and all others interested will be given a chance to express their views.

Several years ago the harbor line was established as far east as Thirty-fourth street and work on the river bank has been completed for some time. Now, preparatory to the inauguration of plans for the improvement of River drive for the five miles between this city and Watertown, the commission desires to have the government continue the survey to the city limits. When this is done, it will be determined how far the filling of the stream will be permitted.

It is hoped that River drive will ultimately be made one of the prettiest in this vicinity.

The Tri-City Railway company added \$1,000. Six hundred Odd Fellows from Moline, Rock Island and surrounding territory witnessed the exhibition drill by the degree team of Manufacturers' lodge No. 485, last evening. The work was in the first degree and was as nearly as possible similar to that put on at Minneapolis, where the team made such a fine showing in the first and second place in the initiatory degree. Moline lodge No. 133 held a short business session and then the members attended the exhibition.

Carl Lundberg, L. P. Johnson and Captain John Johnson of the Swedish Olive team, which won first prize in first degree work at Minneapolis, spoke, complimenting the Manufacturers' team on its showing. Election of officers will take place next Tuesday. There are 14 candidates for initiation.

STATUTE OF TANGO IN THE BALANCE

Question Referred to Chief of Police Bisant for an Official Answer.

Tom Carron, who conducts public dances at Eagles hall, wants to know whether the tango is a moral dance. To finally decide the matter he has put the question up to Commissioner E. L. Eastman, who in turn has referred it to Chief of Police O. M. Bisant. The chief has spent a week attending dances and trying to decide upon a report. So far he has not been able to come to a conclusion. "I have not seen enough to warrant forming an opinion," he said, and he proposes to continue his investigations.

Mr. Carron says he stands to lose either way. If he bans the tango, many of his patrons will desert him and if, on the other hand, he announces that the dance will be permitted, others will cease patronizing his affairs.

Public dances which were stopped at the old Wagner theatre will be resumed soon. It is stated, the city authorities having decided to lift the ban on promise of better regulation in future.

SCHILDKRET'S ORCHESTRA COMING AT A LATER DATE

Announcement is made of a change in the date of the concert by Schildkret's Hungarian orchestra in this city from Oct. 24 to Nov. 14. It will appear at the First Congregational church under the joint auspices of the Little Women's circle of the King's Daughters and the Y. M. C. A. Because of the fact that the orchestra has been engaged to appear at the Illinois theatre in Rock Island some have formed the impression that it was not to appear in Moline at all.

BETTER CARRIER SERVICE IN EAST

Postoffice Doubles Force Between Thirty-fourth and Fifty-fifth.

Improvements in the east end of the city have made it possible for the assignment of an additional letter carrier in the district between Thirty-fourth and Fifty-fifth streets. Two men went on duty today to cover the district formerly taken care of by one man. As a result there will be both morning and afternoon deliveries and collections instead of one each as formerly, the service being the same as that in other residence parts of the city.

Postmaster A. T. Foster says the progressive attitude of people living in the district is responsible for the improved service. Lights have been installed and sidewalks laid so that carriers are better able to get about. One of the men will be mounted and he will cover the outlying parts of the district.

Their only son, Harlan, is now enroute from the Philippines, having been appointed nearly two years ago as chief chemist there for the United States government.

Dr. Carter was a brother of Mrs. C. G. Dack of South Heights, who is now in California.

Her husband died several years ago, and she had since made her home with her daughter. Three sons, Albert, Stewart and Dallas, the two first named of Moline, and two daughters, Mrs. Thornton of this city and Mrs. William Allen of Waterloo, Iowa, survive.

Thomas Tosheky, 100 Feet Below, Fed Through Tube, Tells Wife Not to Worry.

Centra, Pa., Oct. 1.—The rescuing party at the Continental mine of the Lehigh Valley Coal company trying to get to the imprisoned miner, Thomas Tosheky, entombed by a fall of coal Friday, reached a point today which showed 40 feet of solid coal and rock between them and the man they are seeking to save.

Tosheky is bravely undergoing imprisonment 100 feet below the surface and is being fed and talked to through a tube worked through the solid coal from an adjoining chamber. He complained of dampness and cold, but got relief when a blanket was pushed through the tube last night. His chief concern seems about his wife and four children and he sends cheery messages to them not to worry.
